Detailed Course Descriptions:

Homework Help (EL/MS/HS): Homework help sessions offer drop-in tutoring between Tuesdays through Thursdays. Students work on homework independently, and when they come across difficulty in their homework assignments and essays, a teacher will guide them through. When students finish their homework and there is remaining time, they may choose to work on other supplemental academic areas with the teacher.

Algebra 1 (MS): Students are able to get school math homework questions answered and strengthen their pre-algebra and algebra skills. There will be review of fundamental mathematical concepts and practice with number sense through games.

Biology (HS): This class follows the school curriculum, and will answer questions and review concepts biology to help students succeed in the subject during the school year.

Geometry (HS): This class follows the school curriculum, and will review fundamentals of geometry to help students succeed in the subject during the regular school year.

Persuasive Writing/Public Speaking (Elementary/Middle School/High School): These courses will teach students how to write persuasive essays/speeches and how to deliver them effectively and confidently. Students will compose persuasive essays and speeches in class. Each session requires students to practice and perform their written work in class. At the end of each semester, students who excel may earn a certificate of achievement.

SAT I Math/Verbal Courses (High School): Students will practice test-taking skills needed to master the SAT exam. The course will guide students on how to study for the exam, and to strategize for maximum scores. Students will practice problems and receive homework to understand their mistakes and see test patterns. There will be opportunities to take full practice tests.

Intro to SAT I Writing (MS/HS): Students begin to learn how to write SAT I persuasive essays. The class focuses on how to write effective theses and how to support arguments with evidence and analysis.
